

## Cat & Critter Adopters

- Please do not bring anything into the shelter except your ID, payment and cat carrier.
- Remember that appointments are at a set time so please be on time. We need adopters to stay within these time limits in order to properly disinfect between appointments for staff and public safety.
- Maximum 4 persons from the same household may enter the building.
- Bring your own carrier in the room with you.
- Staff will direct you to the cat adoption room. Please follow the social distancing markers on the floor.
- If you decide to proceed with the adoption, place the cat in your carrier and bring with you as you proceed back out to the reception area and stay behind the marked area.
- There will be a few additional papers ready for you to sign at the reception desk. Please stay behind the marked area until directed to move forward.
- If paying by debit/credit, the SPCA will key the total into the machine and pass that through the plexiglass. If paying by cash, please bring exact change.
- Appointments will be 30 minutes in total to allow for disinfecting between appointments
